PARQUE HUISHUE CARRAN 1959 NORTH PATAGONIA

An exclusive Fly Fishing experience in a pristine setting

Every fishing trip is carefully designed to provide an exclusive experience on one of Northern Patagonia's best-preserved lakes.

Controlled access to the lake and the exclusive operation of park-owned motorboats ensure low fishing pressure, allowing anglers to enjoy peaceful, safe, and highly productive days on the water.

Experienced Fly Fishing Guides

Our Conservation **Philosophy**

We believe that exceptional fly fishing begins with respect for nature.
Every trip follows a strict **Catch & Release** policy, helping preserve healthy trout populations and protect the lake's natural ecosystem.

Protecting the Lake

B**efore entering the lake**, all fishing equipment is disinfected to prevent the spread of Didymo *(Didymosphenia geminata)*, an invasive freshwater algae that threatens aquatic ecosystems.
Every guest plays an important role in preserving this unique environment for **future generations.**

Lake Huishue

- Crystal-clear waters
- Five waterfalls
- Low fishing pressure
- A pristine landscape surrounded by native forest and mountains

Species

RAINBOW TROUT

Strong, powerful and beautifully colored, the Rainbow Trout offers exciting fishing opportunities throughout the entire season.

BROWN TROUT

Elegant, selective and highly rewarding, Brown Trout are commonly found in the lake's deeper, colder waters.

Recommended Fly Patterns

- Woolly bugger
- Peanut envy
- Egg sucking leech
- Pancora pattern

MORE THAN A DAY ON THE WATER—AN **UNFORGETTABLE FLY FISHING** EXPERIENCE IN ONE OF NORTHERN PATAGONIA'S **LAST PRISTINE WILDERNESS AREAS.**
